GPs EXPERIENCE WITH TESTING MIGRANTS FOR HIV

COLLABORATION FOR EVIDENCE, RESEARCH & IMPACT IN PUBLIC HEALTH

Researchers at Curtin University are looking to interview **General Practitioners** on their experiences in testing people born in sub-Saharan Africa and South East Asia for HIV. This research is part of a broader project exploring barriers to HIV testing.

We are looking for GPs in WA, NSW, SA and Victoria who see clients from these two regions to take part in a 25 minute phone interview. This research will help give a better understanding of the role of GPs in testing patients for HIV.

If you are interested in taking part, please contact Corie Gray for more information at **08 9266 4739** or corie.gray@curtin.edu.au

Curtin University Human Research Ethics Committee has approved this study (HREC2017-0088)
